Program Management Professional (PgMP)® Certification Exam Prep

Duration	Delivery Methods
4 Days	VILT, Private Group

This Program Management Professional (PgMP)® certification training course will guide you through the Standard for Program Management and support your journey to the PgMP® exam. Through the guidance provided during this boot camp and subsequent study, you will know what to expect on the day of the PgMP® exam itself. This PgMP® training course will be taught by a PgMP® accredited instructor who will guide you based on personal experience of the process. Supplemental materials such as simulated exams to prepare you for the actual test, as well as 20-question exams at the end of each section of the course will help boost your confidence for exam day.

Note: This course has been approved by PMI for 35 PDUs.

Who Should Attend

This is an Advanced-level course that is suitable for people who have the necessary experience to meet the Project Management Institute's eligibility requirements. We recommend that our students have obtained the Project Management Professional (PMP)® accreditation already. Many of the day-to-day tools and techniques covered by the Standard for Program Management are very familiar to PMP® exam students.
