

Professional in Business Analysis (PMI-PBA®) Certification Exam Prep

Duration
4 Days

Delivery Methods
VILT, Private Group

Participants in this course will learn what they need to pass the Project Management Institute Professional in Business Analysis (PMI-PBA®) exam, PMI's fastest growing certification. They will also refine their understanding of BA best practices as captured in the PMI business analysis-related standards. PMI-PBA® candidates will learn the full repertoire of BA techniques and elevate their understanding of their own experience as seen through the lens of industry best practices.

Business analysis has become a critical competency of project management, and the PMI-PBA certification can help advance your career. If you work with project teams and manage requirements or product development, or if you're a project or program manager who performs business analysis in your role, then the PMI-PBA certification is right for you. This course conforms to the PMI-PBA Exam Content Outline (ECO) and aligns with the PMI Guide to Business Analysis and the Business Analysis for Practitioners: A Practice Guide.

This course satisfies the 35 hours of formal education required to sit for the PMI Professional in Business Analysis (PMI-PBA) exam.
